

## Tips to help your children with Maths

- Count everywhere you are e.g. the number of red cars, the number of steps
- Look for numbers in the environment e.g. on doors, buses, telephone numbers etc
- Practise 1-1 counting with food, treats, children's toys
- Look for shapes in your home. E.g. can you see a circle?
- When shopping look at prices of items to help with number recognition
- Share food at dinner time
- To help with measuring make cakes with your child looking for numbers on the jug, weighing etc.
- Make Maths fun!!!
