PRIDE IN EXCELLENCE

A community school where...

'Staff share a moral purpose to give all pupils a rich education.'

- Ofsted 2019

View a virtual tour of our nursery, reception and Children's Centre:

(Reception applications for entry in September 2021)

In early years our children are immersed in a rich, creative and stimulating curriculum which develops not only literacy and maths skills to an extremely high standard, but also their emotional intelligence.

This ensures children want to achieve and learn the skills of being:

- ◆ **Autonomous**
- ◆ **Resilient**
- ◆ **Aspirational**
- ◆ **Collaborative**
- ◆ **Enquiring**

We also have a very successful PTA and actively encourage parents and carers to take part in their child's learning as well as join our PTA.

The Early Years provision is excellent. We have large outdoor spaces which facilitate learning through play.

Ofsted said, '*the early years classrooms were inspiring and promoted children's learning, so they were deeply engaged at all times.*'

Our School Vision

At Purley Oaks we firmly believe that every child will be supported, valued and challenged. We are ambitious for our children and their families and are driven by our moral purpose to ensure that everything we do has a positive impact on the children's lives. We are determined that our children will take pride in their learning and themselves and that they will strive for excellence.

By working closely together and continuously improving our practice, there is no limit to what can be achieved.

At Purley Oaks we believe our children can do anything if we give them the motivation and support.

We are a three form entry primary school offering places from nursery through to year 6.

Our school is increasingly popular and the established leadership team is committed to working towards excellence and achieving the best outcomes for all our pupils.

We have high expectations of our children and offer a curriculum that is creative, balanced and fun; but more importantly based on the needs of our children.

Our team of experienced staff are committed to ensuring that your child is fully prepared for every stage of their educational journey. Our goal is to equip them with skills that will enhance their future.
